

Chris Winspear Design Jewellers presents the “Cocktail Collection”

Chris Winspear Design Jewellers is renowned for its elegant jewellery and specializes in creating custom-designed pieces of prestige. The man behind all this opulent jewellery, Chris Winspear is very passionate about his craft and presents his first jewellery collection inspired by cocktails.

From the peridot-colored “Mint Mojito” to the funky “Pink Cosmopolitan” to the dark “Blue Island Iced Tea” – each piece is named after a famous drink. As cocktails are known for their intense colors, the designer created an iridescent collection of five rings and one pendant. All pieces are finished off with unique cocktail decorations, like a mint leaf or a lemon zest.

The “Cocktail Collection” is available in different metals like silver, gold or platinum as well as with diverse stones from cubic zirconias to sapphires, diamonds or every other gem stone. It is a very fresh and elegant jewellery collection for women, who enjoy wearing unique pieces and being one of a kind.
